

The Greatest Show on Earth

*"Can you send forth lightnings,
that they may go and say to you,
'Here we are?'" Job 38:35*

Spring in Montana brings long anticipated events like the melting of snow, the blooming of flowers, and the power of thunderstorms!

Louie Giglio has written several devotionals geared toward kids that highlight God and science. In his book, *Indescribable*, Giglio writes about the awesome power of lightning.

Giglio explains that "lightning is caused by water and ice moving around inside a cloud, which creates an electric charge. When the charge gets strong enough, it bursts out as a bolt of lightning."

Lightning can travel great distances with one bolt traveling almost 200 miles. A bolt of lightning can reach temperatures of 50,000 degrees Fahrenheit and produce up to a billion volts of

electricity.

Did you know that our amazing God is the one in control of the lightning? Job 36:32 tells us that "He covers his hands with the lightning and commands it to strike the mark."

Giglio explains, "The same God who commands lightning wants to pour His power into your life. How? Through prayer. It's that simple. Talking to God invites His power into your life. The Bible promises that when a child of God prays, He listens."

The God you pray to has the ultimate control over all of creation. He

also has the wisdom to use that power to bring glory to Himself and to take care of His children, you and me.

The next time you are struggling, bring those struggles to God who hears your prayer and will do what is best in your life.

Come see us at the Glendive Dinosaur & Fossil Museum this summer! We look forward to your visit!

Giglio, Louie. *Indescribable*. Nashville, Tommy Nelson, 2017.
