

The Bible and the Fossil Record

"...The world that then existed was deluged with water and perished." - 2 Peter 3:6

Our museum exhibits are world-class. I often tell people that I can say that because I didn't build the museum. Otis Kline, the museum founder, is the visionary behind this monument to God's creative work as well as the judgement of the global flood.

We are also world-class because of our museum artist, Melanie Richard. One thing visitors notice right away is that our dinosaur exhibits are more like zoo habitats making them stand out among other museums.

We try to update the museum each year and 2024 is no exception. Melanie and I have been working to expand the order of burial exhibit which helps guests see how the

flood could explain the fossil record. If you've visited the museum, you might remember this 8-sided exhibit.

This last week, Melanie, along with David Gibbs, Melanie's assistant, started the final phases of taking this small exhibit and expanding it to run

from the Biblical history room to the mastodon exhibit. Our hope is that our guests will be able to more fully appreciate the effects of the flood in the laying down of the fossil record.

Several years ago, one of our visitors shared that he committed his life to Christ after studying the order of burial exhibit in our museum because the fossil record had been a major stumbling block for him in accepting the Bible as true. What an amazing testimony!

Thank you, Melanie and David, for all your hard work! The kingdom of God is being proclaimed through your commitment to the Glendive Dinosaur & Fossil Museum!
