

Buzz Pollination Declares the Glory of God

God is an amazing designer! Our friends over at Creation Studies Institute have published a book titled Have You Considered: Evidence Beyond a Reasonable Doubt with 365 unique daily devotionals highlighting the master designer. The following focuses on the amazing design feature of bees:

"Have you heard of "buzz pollination"? About 8% of flowering plants have their pollen so tightly locked away that most pollinating insects cannot reach it. With these flowers, only a loud sound of a certain frequency will release a shower of pollen. The Virginia Meadow Beauty is one of these flowers; it will not release its pollen unless "buzzed" by a bumble-

bee.

"A honeybee can crawl around the flower all day and never get any pollen. Only the correct buzzing sound releases the pollen! In America, bumblebees are required for proper tomato flower pollination. These bumblebees make a buzzing sound at exactly middle C (261.63 Hz). No other frequency causes the pollen to be released from the tomato flower! Honeybees work in silence; therefore, no pollen is released for them. Dr. Sarah Smith Greenleaf demonstrated this process using a tuning fork. When she struck a middle C and placed the tuning fork near the tomato flower, a cloud of yellow pollen appeared.

"Only bumblebees buzz at the correct frequency can unlock the pollen. How did buzz pollination come about? What advantage would this be for the flower - to lock pollen from a pollinator? Why would the bumblebee develop the right frequency to unlock the pollen when he could get pollen from other plants that do not require buzz unlocking? We are observing design in this process, and God is that Designer."

New Hours for 2021

We are excited to announce expanded hours for 2021! Our season begins on April 2nd when we will be open on Fridays & Saturdays from 10am-5pm through May. Starting on Memorial Day,

the museum will now be open on Monday through Saturday from 10am-5pm through Labor Day. In September & October we will be back to opening on Fridays & Saturdays from 10am-5pm.

We would love to have you visit the museum and check out our new exhibits as we affirm the truth of the Bible and God our glorious Creator!

Museum Hours 2021

10am-5pm

Apr-May.....Fri & Sat
 Memorial Day-Labor Day.....Mon-Sat
 Sept-Oct.....Fri & Sat
 Nov-March....Call for Available Times

Where Biblical History Comes Alive!

New Exhibits Revealed

We are excited to unveil several new features to the Glendive Dinosaur & Fossil Museum. Due to generous donations, we were able to purchase three modern skeletons for display alongside fossilized bones. The three skeletons were specifically chosen since fossilized bones of the exact same creatures are found in our area. Alligators, turtles, and possums remain unchanged when compared to their fossilized counterparts. Alligators have always been alligators, turtles have always been turtles, and possums have always been possums.

All things were made through him, and without him was not any thing made that was made. John 1:3

Donations:

FACT is supported through museum admissions, giftshop sales, digs, and donations.

To **donate by check**, please mail to the address on the right.

To **donate by credit card/paypal**, please visit our website and click on the donate button or give us a call. Thank you for your support!

Another update to the museum is a reworking of the stegosaurus display. Our museum artist, Melanie Richard, has devised a landscape which will illustrate the fact that dinosaurs and humans lived at the same time.

I want to thank our donors and workers who have helped out with bringing these exhibits to life. We have the privilege of amazing individuals who are willing to build, paint, and clean as the exhibits are installed.
